

## TOWER GMS ENDORSEMENT TRAINING COURSE

The training process for the **Tower GMS endorsement** offered by SENASA includes two parts:

- Conference on the GMS endorsement
- Aerodrome simulation assisted by Ground Movement Surveillance systems (GMS)

### COURSE OBJECTIVE

According to Commission Regulation (EU) 2015/340, the ground movement surveillance (GMS) endorsement operates as a complement to the ATC ground and tower control ratings and indicates that the holder of the license is able to provide control to ground movements with the assistance of ground movement surveillance airport systems.

### AUDIENCE

- Air Traffic Controllers -or Student Controllers- with ADI/ADV ratings without the GMS endorsement.
- Students who have passed the ATC Tower Initial Training Course (ADI/ADV ratings) and have not been trained on the GMS endorsement.

## COURSE DETAILS

### COURSE CONTENT

- Use of ground movement radar.
- Operation of the ground movement surveillance and control systems.
- Management of aerodrome ground movements under low-visibility conditions with the aid of ground movement surveillance and control systems.
- Management of aerodrome ground movements with the aid of ground movement radar.
- Procedures for abnormal and emergency situations with the aid of ground movement radar.

### REGULATION

Commission Regulation (EU) 2015/340 of 20 February 2015 laying down technical requirements and administrative procedures relating to air traffic controllers' licences and certificates pursuant to Regulation (EC) No 216/2008 of the European Parliament and of the Council, amending Commission Implementing Regulation (EU) No 923/2012 and repealing Commission Regulation (EU) No 805/2011.
