**GUIDE TO THE
USE OF COOKIES**

GUIDE TO THE USE OF COOKIES

This Guide to the Use of Cookies in SENASA describes how we collect, store or use the information we collect through the different services or pages available on this site. It is important that you understand what information we collect and how we use it, as accessing this site implies acceptance of this Guide.

SENASA informs that it needs to use cookies to guarantee the correct functioning of certain applications of its website, which is expressly made known for the purposes of the provisions of article 22.2 third paragraph of Law 34/2002, of 11 July, on information society services and electronic commerce.

What is a cookie?

Cookies are small text files containing information that are downloaded to the device of any user visiting a website. After being installed, cookies can be sent back to the website of origin (first-party cookies) or to other websites (third-party cookies).

What is a cookie used for?

Cookies allow a website to recognise a user's device, facilitating browsing, remembering preferences and, in general, improving the user's experience, helping to provide information and services related to their interests.

Current law allows us to store cookies on your device if they are strictly necessary for the operation of this site. For all other types of cookies we need your permission.

Types of cookies

- A. Depending on who manages them, they can be own or third party.

We inform our users that SENASA only uses its own cookies, not those of third parties, and whose mission is strictly functional.

In this sense, the corporate channels that SENASA has on social networks and which also appear on our website as a link to these third parties (Facebook, X and LinkedIn), are not our own cookies but those of third parties, nor does SENASA hold any kind of responsibility or ownership in this regard.

- B. Depending on the length of time they remain stored in the customer's browser, they may be session cookies or persistent cookies:

At SENASA we only use persistent cookies: these are small text files that the website sends to the user's browser and are stored on the hard drive of the user's device. These files contain specific data about the user's browsing, such as language preferences, login details and other customisations that make the website experience more convenient and personalised. The data remains stored on the terminal and can be accessed and processed for a period defined by the cookie manager.

- C. Depending on the purpose of the data obtained, they may be technical (or necessary), analytical, personalisation and advertising cookies.

At SENASA we only use technical or necessary cookies for the correct functionality of the website.

Therefore, the cookies used by SENASA do not require the informed consent of the user subject to preferences or rejection, but their knowledge through the publication of this Guide and the need to accept them if you wish to continue as they are necessary cookies. For more information about who we are, how you can contact us and how we process your personal data, you can consult our **Privacy Policy** here.

SENASA reserves the right to modify this Guide to the Use of the Cookies, always in the terms permitted by current Spanish legislation and after notifying the interested parties, either by publication on this page or by any other means of communication or dissemination deemed appropriate.

List of technical or necessary Cookies used:

▶ elearning.senasa.es ACEPTA_COOKIE
▶ elearning.senasa.es es
▶ elearning.senasa.es PHPSESSID
▶ elearning.senasa.es TRA6

Nombre cookie	Utilidad
ACEPTA_COOKIE	It will tell us whether or not the user has accepted the cookies, depending on their value or existence, we will show the warning of the use of cookies and we will let or not continue with the application.
Es	Stores the user's language preference.
PHPSESSID	Stores a session identifier.
TRA6	Stores a login session identifier.

https://polaris.senasa.es/admin/
▶ polaris.senasa.es
▶ polaris.senasa.es DT_COOKIE_LANG
▶ polaris.senasa.es PHPSESSID
▶ polaris.senasa.es TRA6

DT_COOKIE_LANG: saves the language in which the web is shown.

PHPSESSID: stores a unique string with the session identifier and necessary for data management in Polaris.

TRA6: stores a string identifying the user login, but without containing personal data of the user, to control the connection time.

Nombre cookie	Utilidad
mem	Stores the value of the calculator memory that can be used to answer questions during an exam.
impresora	Stores the name of the printer through which the exam result and the check sheet will be printed at the end of the exam.
